

EMOTIONAL INTELLIGENCE

EQ-i 2.0®
assess. predict. perform.

SARVAGNYA

For almost 20 years, organizations have trusted the science that underpins the EQ-i2.0® to help improve human performance. The EQ-i2.0 is a psychometric assessment which measures emotional intelligence and how it can impact people and the workplace. Being the first scientifically validated measure of emotional intelligence, coupled with research from premier organizations, means you can count on the EQ-i2.0 to add robustness and accuracy to your talent management initiatives.

LEARNING OBJECTIVES

- EQ-i2.0 is world's most renowned assessment tool to measure EI & how it can impact people and the workplace.
- Over 2.5 million people across 66 countries have taken the EQ-i2.0.
- It is an excellent tool for Personal and Leadership Development.
- You learn important links between 15 EI competencies, allowing for real developmental change.
- You would gain a deeper insight into how each EI competency impacts your work performance.
- You get a 21-25 pages assessment report in a color coding format, clear layout and language that speaks and provides an action plan.
- Facilitation through a world class training methodology followed by a coaching lab that helps you master the Emotional Intelligence skills.
